Bay Corporation

1.888.835.3800

Founded in 1979, Bay Corporation was established in response to the medical industry's need for a reliable source of quality medical gas fittings and connections. Today, we are considered the leading independent medical gas fittings, connections, adaptors and hose manufacturer for Respiratory, Anesthesia, Surgical, Dental, Emergency Care, and Home Care equipment. Our products are used by Original Equipment Manufacturers, Medical Device Distributors, Medical Equipment Repair and Refurbishing companies, and Hospital Biomedical personnel around the world.

Bay Corporation is committed to serving our customers' needs as we strive to provide a great place to work for our employees. We are dedicated to providing a professional and ethical atmosphere, which is reflected in our extensive line of products and customer service. In addition, we are known for our quick, off-the-shelf delivery of in-stock products. With 33,000 square feet, our manufacturing facility is designed to meet the growing needs of our customers.

We sincerely appreciate your consideration of Bay Corporation and look forward to serving you.

We are **Your Medical Gas Fittings Specialist™!**

Color-coding Explanation

Color-coding is used as a gas identifier worldwide for medical gas fittings and connections.

The following color-coding chart is for your assistance.

	USA	ISO
Carbon Dioxide	Grey	Grey
He-O₂	Brown and Green	Brown and White
Medical Air	Yellow	Black and White
Nitrogen	Black	Black
Nitrous Oxide	Blue	Blue
O₂-He	Green and Brown	White and Brown
Oxygen	Green	White
Vacuum (Suction)	White	Yellow
WAGD (EVAC)	Purple	Purple

Non-Conductive Hose

sales@baycorp.com

Non-Conductive Hose (*Packaged 250 ft. per reel*)

- Inner core: Medical grade PVC
- Braid reinforced polyester
- Outer cover: Solid-colored PVC - see chart
- Working pressure: 200 psi max. @ 70° F
- Minimum bend radius: 3 inches
- Working Temperature: 25° F to 150° F

1/4" I.D.U.S. Gas ServiceColorItem No.
Outside Diameter: .460"

General Purpose	Clear w/White Braid	BC-2225
Medical Air	Yellow	1416
Nitrogen	Black	1458
Nitrous Oxide	Blue	1404
Oxygen	Green	1424
Vacuum (Suction)	White	1422

-----------------------	---------------------------	---------

Rubber Hose for Oxygen Service (*Packaged 650 ft. per reel*)

Used in applications where extreme temperatures may be present (i.e. Emergency Medical Service).

- Inner Core: Synthetic Rubber
- Braid reinforced
- Outer Cover: Synthetic Rubber
- Working Pressure: 200 psi max.
- Minimum Bend Radius: 3 inches
- Burst Pressure: 1500 psi max.
- Working Temperature: -40°F to +200°F

3/16" I.D.U.S. Gas ServiceColorItem No.

Hose Assembly Matrix

1.888.835.3800

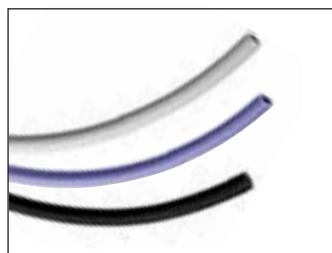

Create your own custom hose assembly part number.

Follow this process below to generate your unique part number.

Fill in _____

Then call Bay Corporation for verification as well as pricing and availability. Save time and money! (*Suggestion: photocopy this worksheet for your future orders.*)

step 1

Hose Type

X X _____

- Select type of hose
- Identify Internal Diameter (I.D.)
- Choose gas service/color
- Find associated two-digit order number

Type:
Internal Diameter:

Conductive PVC 1/4"/5/16"

Carbon Dioxide (grey) - 71
Medical Air (yellow) - 31
Nitrogen (black) - 21
Nitrous Oxide (blue) - 11
Oxygen (green) - 51
VAC/Suction (white) - 41
WAGD/EVAC (purple) - 61

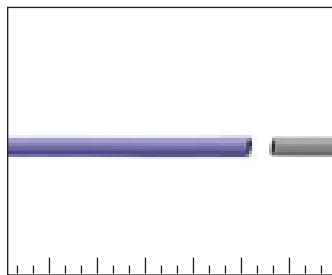

Non-Conductive PVC 1/4"/5/16"

General Purpose - 02 05
(clear w/white braid)
Medical Air (yellow) - 33
Nitrogen (black) - 23
Nitrous Oxide (blue) - 13
Oxygen (green) - 53
VAC/Suction (white) - 43
WAGD (EVAC) - 63

Rubber Hose 3/16"

Oxygen (green) - 62

step 2

Hose Length

_____ X X X _____

- Determine desired length of hose assembly (cut length of hose)
- Convert to inches (i.e. 2 feet = 024 inches)

step 3

End Connections

_____ X X X X _____
inlet outlet

- Select type of end connections from page 33
- Identify appropriate gas service
- Find associated two-digit order number
- Repeat for end connection #2

step 4

If desired, add 90° swivel inlet option (patent pending).

S _____

↑ Add S prefix to part number. See page 33 for available inlet connections.
(Swivel adaptor sold separately. See page 41 for details.)

Note: See facing page for connections and codes.
See page 36 for Hose Retractor.

End Connections

1/2"	5/8"	1/16"	28 @ 70° F	HL-858

* Suitable for vacuum service, not to exceed 21" Hg. @ 70° F.

Specifications

- Material: 100% Virgin FDA Grade PVC meets U.S. Pharmacopoeia Class VI Criteria for Hospital, Clinical, and Laboratory Apparatus.
- Non-Toxic, Non-Reactive, Odorless, and Tasteless.
- Tubing may be sterilized with steam (20 psi for 15 min.), Chemical Bacteriacides or Gas (Ethylene Oxide).
- Packaged in 100 ft. coils.

High Density Teflon Tape

1/4" x 520" for use with 1/8" NPT & 1/4" NPT ThreadsTFE-40
1/2" x 520" for use with 1/2" NPT Threads & LargerTFE-50

Instructions for Use:

Begin with the second thread from the end of the part to be taped. Wrap tape in the direction of the spiral. Make two complete wraps, drawing the tape around the threads tightly so that it conforms to the threaded surface. Allow for a slight overlap after the second full wrap and cut/tear the tape. Press the end of the tape in firmly. Make up the connection in the usual fashion and tighten. Tape will fill up the void in the threads and provide a positive seal.

Leak Detection Fluid

- Oxygen Safe
- Dries Clean
- Economical
- Meets MIL-L-255

8 oz.	LD-8

* Nonflammable, Noncorrosive Gas Mixtures Labeled as Drugs or Medical Devices, and not having another Connection Assignment.

Replacement Components for Yoke Assemblies

T-Bar Handle,.....	TH-1
Screw Length - 1 3/4"	
Extended T-Bar Handle,.....	TH-2
Screw Length - 2 3/16"	
Plastic Yoke Washer.....	TW-100
Nitrile Washer with Aluminum Ring	RW-1
Fluorocarbon Washer with Brass Ring	RW-2
-recommended for Oxygen service	

Note: (I) - Carbon Dioxide not over 7%

(II) - Helium over 80%

(III) - Oxygen over 23.5%

(IV) - Oxygen over 23.5%

(V) - Helium not over 80%

(VI) - Co2 over 7%

Special configurations are available upon request.

Diameter-Index Safety System

Diameter-Index Safety System

The Compressed Gas Association (CGA) developed the Diameter-Index Safety System (DISS) to establish a standard for non-interchangeable, removable connections for use with Medical Gases (200 psi max.), Vacuum (Suction), and WAGD (Evacuation) Service. Non-interchangeable indexing is achieved by a series of increasing and decreasing diameters in the components of the connections. These specific diameters act in a key-like fashion, so that fittings within the gas service "family" (Vacuum and WAGD included) will connect only with their own "family members." In place of diameter indexing, Oxygen (DISS 1240) has been assigned the long established 9/16"-18 thread connection as its safety standard.

Each DISS connection consists of a Body Adaptor, Nipple, and Nut (Fig. 1). As the diameters of the Body Adaptor (A & B) increase/decrease, the diameters of its mating Nipple (C & D) increase/decrease proportionally. In this way, only properly mated and intended parts fit together to permit thread engagement (Fig. 2). The DISS system is utilized on gas pressure regulator outlets, wall outlets, anesthesia equipment and respiratory therapy equipment. Bay Corporation is an active, contributing CGA member. For additional information on the Diameter-Index Safety System, please contact Bay Corporation.

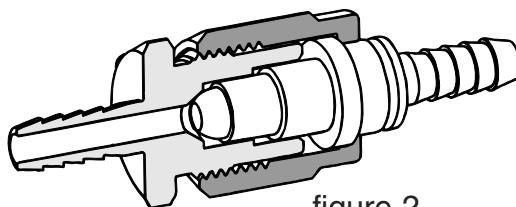

figure 2

Gas Name	Connection No.
Carbon Dioxide	1080-A
He-O ₂ mixture (I)	1060-A
Instrument Air (III)	2080
Medical Air	1160-A
Nitrogen	1120-A
Nitrous Oxide	1040-A
O ₂ -He mixture (II)	1180-A
Oxygen	1240
Vacuum (Suction)	1220
WAGD (EVAC)	2220

Chemetron®, Ohmeda®, Puritan®, and Schrader® are trademarks of their respective companies.

Note: (I) - Heliox mixtures: Helium over 80%.
(II) - Heliox mixtures: Helium not over 80%.
(III) - Intended for the powering of medical devices unrelated to human respiration.

Warranty and Remedy

sales@baycorp.com

The Buyer represents and warranties that the Buyer is knowledgeable and capable to assemble, process, and resell Bay Corporation's (herein "Bay") products in a manner consistent with current industry standards.

Except as otherwise noted on Bay's quotation or other signed written communication from Bay, all parts sold by Bay are warranted for a period of one year from the date of shipment to be free from defects in material and workmanship and to conform to Bay's written specifications applicable to the parts. Bay, at its option, will replace, repair, or give Buyer proper credit for any products or parts found by Bay not to comply with this warranty. No other warranty or guarantee, expressed or implied, including without limitation the warranty of merchantability or fitness for any purpose, shall exist in connection with the design, manufacture, sale, or use of any goods or parts sold by Bay.

Without in anyway limiting the generality of the foregoing, this warranty does not cover, and Bay shall have no liability for:

- A. Failure or damage due to misapplication, abuse, improper installation, or abnormal conditions of use, temperature, moisture, dirt, pollution, or corrosion.
- B. Parts that have been in any way altered after leaving Bay's plant.
- C. Parts damaged in shipment or otherwise without Bay's fault.
- D. Expenses incurred by the Buyer in processing any parts before discovery of alleged defects or in attempting to correct same.
- E. Failure or rejection of parts due to incorrect specifications and/or design parameters supplied by the Buyer.
- F. Damages or losses resulting directly or indirectly from the use or resale by the Buyer of defective parts, or for Bay's parts that have been further processed by the Buyer.

Bay shall not be liable for incidental, indirect, consequential, or punitive damages. The remedies of purchaser set forth herein are exclusive, and the liability of Bay with respect to any contract or sale, whether in contract, in tort, under any warranty, express or implied for merchantability, fitness, or otherwise, shall not exceed the price of the products upon which such liability is based. Bay shall not be responsible for losses, detentions, or delays occasioned by accident, strikes, or fires affecting Bay's operations or the operations of Bay's suppliers, or any other cause beyond the control of Bay.

All claims by Buyer will be deemed waived if not presented within 30 days after receipt of shipment. Upon notice of any such claims, Bay may inspect any alleged defective parts at the Buyer's place of business or may request their return to Bay. The Buyer may not return parts without authority from Bay and Bay will not be liable for transportation charges if parts are returned without Bay's authorization.

Terms and Conditions

Payment: 2% 10 days from date of invoice, net 30 days to customers with established credit.

Past Due Account: An interest penalty of 1.5% per month will be charged to delinquent accounts.

Freight And Allowance: Delivery on all orders of net value of less than \$1,500.00 shall be F.O.B. shipping point. On shipments of standard catalog items exceeding \$1,500.00 in value, the freight shall be F.O.B. delivered to all points in the continental USA. Unless specifically agreed upon in advance, Bay will select the carrier and route.

Prices: Prices are subject to change without notice and are quoted in US dollars.

Quotations: All quotations are for immediate acceptance unless otherwise stated and are subject to correction for clerical error. Refer to original mailed quotation for additional terms and conditions of sale.

Stock Items: Bay reserves the right to update or change the design of Bay's standard product line without notice.

Minimum Order: A minimum charge will apply to cover the cost of processing small valued orders.

Returned Goods: Bay will not accept returned goods without prior approval. The Buyer shall obtain an RGA (Returned Goods Authorization) number from Bay. To receive credit, all items being returned must be carefully packed to avoid transit damage. Items returned for reason other than the fault of Bay will be subject to restocking charges. Certain products, including specials and obsolete items, cannot be returned for credit.

Shortage And Damage Claims: Contact Bay immediately upon receipt of shipment to report any shortages and/or damages.

Governing Law: All transactions with Bay shall be deemed to have been made and entered into and shall be construed and enforced in accordance with the laws of the State of Ohio. Any action to interpret or enforce contracts with Bay shall take place in Cleveland, Ohio.

Arbitration: Any dispute arising out of or related to Bay's products or any contract with Bay, other than an action seeking injunctive relief, shall be resolved by binding arbitration by the American Arbitration Association, in Cleveland, Ohio pursuant to the rules of commercial arbitration. Buyer and Bay agree to each pay one-half the cost of the arbitration proceeding. Any decision rendered by the arbitrators shall be binding upon the parties and may be filed in any court of competent jurisdiction.
